

# SOLUTION GUIDE

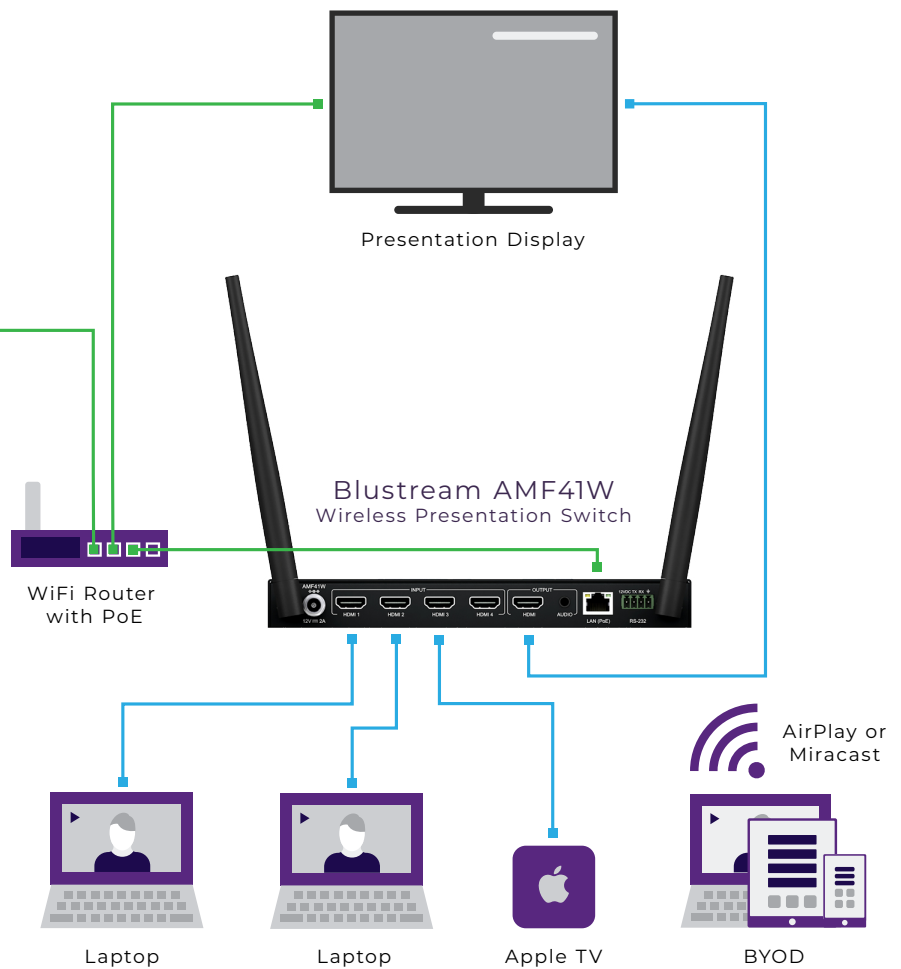

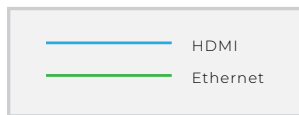

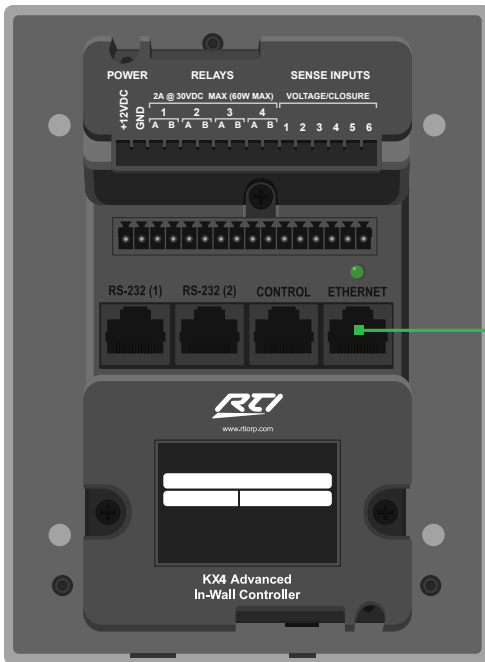

## HUDDLE SPACE

### Simple, Intuitive Control for Ad Hoc Meetings and Collaboration

Huddle spaces are great for popup meetings, where simplicity and cost-effectiveness are key. RTI empowers frequently changing users with intuitive control and easy collaboration on the fly.

KX4 In-Wall Controller

## FEATURES

- Customized user interface on inwall touchpanel for easy, intuitive control.
- Custom engraved buttons enable intuitive control via 5 hard keys.
- All-in-one touchpanel with built-in control processor delivers full control over the AV and offers room for future expansion.
- Time-based events ensure devices are powered on or off.
- HDMI Switcher delivers high-resolution video signals from up to four laptops or video sources to the presentation display and can be controlled via KX4 or the front panel buttons on the unit.
- RTiQ remote diagnostics automatically reports issues.
